

**The powerful,
affordable and easy
senior care compliance
solution**

Basic System Eliminates Avoidable Mistakes

- *SafeAna* from Sticker Control ensures that your team performs on time, every time
 - Resident well-being checks
 - Hand-washing
 - ADLs, including feeding, toileting & ambulation
- Use real-time alerts so managers can intervene before minor problems escalate
- Enforce and document compliance with policies

Powerful Software Using Simple Hardware

- Cloud-based system minimizes cost and IT burden
- Uses NFC tags for checkpoints
 - Inexpensive and small – checking in is as easy as using ApplePay*
- Detects activities using WiFi signals
 - Reads each action's unique signal disruption – each is like a ripple across the surface of a pond*
- Requires minimal staff training
 - Users access the system via app with basic Android phone
 - Only Admin needs web access

**Proprietary
technology improves
outcomes for
residents, staff and
leadership**

Advanced Features Combine Ease and Power

- Detect incidents or changes in behaviors or activity levels
- Get notices about activities that are unusual for the context (time, place, etc.)
- Analyze activities and actions automatically
 - Data models help you spot trends early
- Capture data in structured, wholly customized format

Consistent Care Delivery Yields Immediate ROI

- Increase resident retention and satisfaction by consistently delivering high-level care
- Reduce exposure, risk and complaints resulting from failures to follow established procedures
- Spend less time managing disruptions and more time providing the highest levels of custodial and skilled care
- Set yourself apart from the crowd
